

# Tech Tip Tuesday

(say that really fast 5 times!)

By Michael Shiveley,  
Technical Support Manager

## Today's Tip: Variable Speed Motors

[http://www.munchsupply.com/media/assets/docs/03860\\_1119\\_ECM\\_Troubleshooting\\_Tech\\_Tip.pdf](http://www.munchsupply.com/media/assets/docs/03860_1119_ECM_Troubleshooting_Tech_Tip.pdf)

Variable speed motors require proper setup when a new system is installed or when a motor is replaced. We do, on occasion, find ourselves having to diagnose a possible failed motor. Follow the link above to get a leg up on troubleshooting Variable (Constant Airflow) Motors.
